

ProvidentCheckwriter^{SQL}

Here. There. Everywhere.

Customer Service. New Accounts. Teller Line.
General Accounting. Centralized Operations.
Enterprise Branch Network. Corporate subsidiaries.
ProvidentCheckwriter goes where it's needed.

POWERFUL.

With **over 30 document formats** including Official Checks, Customer Account to Account Transfers, Temporary Checks, Loan Coupons, Loan Disbursement Checks and General Accounting Entries, **virtually all areas of your organization can benefit from *ProvidentCheckwriter*.**

FLEXIBLE.

Manage local, regional and state departments, branches and offices from one central location, **using one central SQL database.** Standard modules and value-added options increase productivity, improve compliance assurance, and enhance fraud prevention.

INTUITIVE.

ProvidentCheckwriter has the look and feel of other Windows-based programs, making it very **easy to learn and easy to use!** The menus and underlying navigation buttons have a familiar look, and input screens include **customized drop-down selection menus** and **auto-fill input fields** that make data entry faster and easier. The ability to retrieve and replicate stored transactions is another timesaver that contributes to increased productivity.

***ProvidentCheckwriter* – the ALL-IN-ONE desktop document processing system for automating essential processes.**

MODULAR

Think of building blocks...you can install *ProvidentCheckwriter* to automate a specific process – generating MICR documents at the teller line, for example – and later, you can add additional documents, other modules and options that expand its capabilities there, or anywhere else in your organization!

Your customers want fast, courteous, professional attention. Your staff wants tools that help them meet the customers' needs. *ProvidentCheckwriter* is the key to providing faster, more accurate service while increasing productivity, efficiency and customer satisfaction.

Software Solutions: Helping you help your customers.
